Join 5,000+ people who
found lasting relief with
Thavira

Successfully supporting people struggling with
Acidity, IBS, GERD, SIBO, and Bloating
through a sustainable, root-cause approach.

Acidity IBS GERD SIBO Bloating

QUICK GUT SELF-CHECK

Your Gut Is Not "Just Sensitive." It's Stuck In a Pattern Nobody Has Mapped Yet.

Burning comes back a few hours after the antacid wears off.

Daily PPI Dependence

Bloating after meals makes you scared of eating normally

Chronic Food Fear

H. Pylori is negative now — but reflux, burning or gastritis still continues.

Post-Antibiotic Gastritis

IBS or SIBO has been mentioned. But nobody has mapped what's actually triggering your specific pattern.

Unresolved Diagnosis

Constipation feels incomplete without a laxative, churan or pressure.

Sluggish Gut Motility

Reports look normal. Your body clearly does not agree.

Functional Gut Distress

If even 1-2 of these are your reality — this call is relevant for you.

Book My ₹199 Gut Clarity Call

You Haven't Failed to Heal. Nobody Has Mapped

the Real Trigger Yet.

ACIDITY / GERD

H. PYLORI

IBS / SIBO

CONSTIPATION

Temporary relief is not root-cause clarity. Until your symptom pattern is mapped properly — the loop keeps restarting.

Break The Guesswork — Book ₹199 Call

5,000+ People With IBS, GERD, H. Pylori & Chronic Bloating Finally Found Lasting Relief

THE THAVIRA METHOD

The 3-Step Gut Clarity Map. An Expert-Led Way to Understand What Your Gut Actually Needs

Next.

STEP 01

Symptom Mapping

We map your exact digestive pattern — burning, bloating, food reactions, bowel habits and symptom timing.

Understand what's happening daily.

STEP 02

Root-Cause Teardown

We review your complete history, failed diets, supplements, medications and previous reports.

Find what's driving the cycle.

STEP 03

The Recovery Protocol

Get access to Thavira's Gut Recovery Course & Supplements Playbook with a personalized action plan.

Your roadmap to recovery.

How We Differ From Conventional Approaches

OLD WAY

- ✗ Suppress the symptom with PPIs
- ✗ Try random probiotics & cleanses
- ✗ Follow generic restrictive diet charts
- ✗ Keep guessing after normal reports

VS

THAVIRA WAY

- ✓ Map the underlying pattern
- ✓ Review what fits your specific case
- ✓ Get personalized actionable direction
- ✓ Understand what to focus on next

This is not about adding one more tablet or food rule. It's about knowing what your gut issue is actually pointing toward.

Select Your Main Condition For Root-Cause Direction:

Acidity & GERD

IBS & SIBO

H. Pylori

Constipation

Bloating & Gas

Mapping Acidity & GERD Triggers

Instead of just suppressing acid production, we review gut motility, lower esophageal sphincter pressure triggers, and potential low-stomach-acid patterns that cause backflow.

This is not about adding one more random supplement or food rule. It's about knowing what your gut issue is actually pointing toward.

This Call Is for Serious Gut Sufferers. Not Casual Gut Curiosity.

✔ This is **FOR** you if:

- ✔ Your gut issues have lasted 6+ months
- ✔ You've tried medicines, probiotics, diet changes or home remedies
- ✔ You're dependent on antacids, PPIs, laxatives or digestive aids.
- ✔ Your reports look normal but symptoms still continue.
- ✔ You're tired of food fear, washroom anxiety and low energy.
- ✔ You want expert-led clarity before trying another treatment path.

✖ This is **NOT** for you if:

- ✖ You want free tips only.
- ✖ You're looking for emergency medical care
- ✖ You expect a magic supplement or overnight cure.
- ✖ You want a diet chart without sharing your history.
- ✖ You're not willing to discuss your symptoms honestly
- ✖ You're satisfied with how your gut is currently being managed

QUICK ANSWERS

Got Questions? We Have Answers.

Is this a treatment program or a consultation?

This is a ₹199 gut clarity consultation — not a full treatment program. The goal is to understand your symptoms, history and likely root-cause direction so you know what your next step should be.

Will I speak with an expert?

I've already tried allopathy, Ayurveda, probiotics and diet changes. How is this different?

Will I be asked to stop my medicines?

Is this only for IBS, SIBO or H. Pylori?

My reports are normal but I still have symptoms. Should I book?
